The newly-formed Coalition for Emission Reduction Projects (CERP) invites you to a briefing session on the Lieberman-Warner bill and U.S. climate policy.

Hear from representatives of:

- EcoSecurities
- American Electric Power
- Deutsche Bank
- Equator Environmental
- Business Council for Sustainable Energy
- Van Ness Feldman

Lunch will be served.

After the briefing, transportation will be available to the Grand Hyatt resort to hear from representatives from the US Congressional Delegation at 1pm.

The mission of the Coalition for Emission Reduction Projects (CERP) is to educate policy-makers and the general public about the benefits of using offset allowances from domestic and international greenhouse gas (GHG) emission reduction projects as a means for regulated entities to meet their compliance obligations under a U.S. federal GHG regulatory program.
